

HARSHITA VASUDEV NAIK

Software Engineer — Full-Stack Development

Bengaluru, Karnataka | +91 9742363446 | harshitavn000@gmail.com | github.com/Harshita000-HVN | LinkedIn

PROFESSIONAL SUMMARY

Software Engineering fresher (B.Tech ECE, CGPA 8.00) with hands-on full-stack experience across two internships and four independent projects. Built REST APIs, relational schemas, and end-to-end web applications using Java, Spring Boot, React.js, Node.js, and MySQL. Comfortable across front-end and back-end layers; seeking a Software Engineer role to contribute to production-grade systems.

TECHNICAL SKILLS

Languages: Java (Core), JavaScript, Python (basics), C (basics)

Frameworks & Web: React.js, Spring Boot, Spring Security, Node.js, JPA/Hibernate, HTML, CSS, REST API design, JWT Authentication

Databases & Concepts: MySQL, RDBMS fundamentals, OOP, Data Structures, Digital Electronics

Tools: Git, GitHub, VS Code, Eclipse, MySQL Workbench, MATLAB, LTSpice, Xilinx, Scilab

Languages Spoken: English, Kannada

EXPERIENCE

Full Stack Developer Intern — ISBSOFT Technology Services LLP, Bangalore

Mar 2026 – Aug 2026

- Built and maintained web application features spanning front-end and back-end layers during a 6-month full-stack internship.
- Developed and integrated REST API endpoints connecting front-end views to backend services and MySQL databases, applying HTML, CSS, and JavaScript throughout.
- Collaborated with the development team through code reviews and debugging sessions, maintaining consistent code quality.

Full Stack Development Intern (Java) — Tap Academy

1 Month

- Completed an intensive full-stack development program covering core and advanced Java, OOP, and backend fundamentals.
- Built end-to-end web application knowledge through front-end technologies (HTML, CSS, JavaScript) and relational database concepts, solving Java coding exercises under deadline constraints.
- Strengthened debugging and collaborative development skills working alongside fellow trainees in a structured training environment.

PROJECTS

Project Management System | Full-Stack Web Application

React.js, Java, Spring Boot, Spring Security, MySQL, JPA/Hibernate, REST API, JWT

- Engineered a full-stack project management system using React.js and Spring Boot to manage projects, teams, users, tasks, and notifications.
- Developed secure RESTful APIs with Spring Boot and Spring Security, implementing JWT authentication, role-based authorization, request validation, and centralized exception handling.
- Built a responsive React.js dashboard with reusable components for project creation, task assignment, and status tracking.
- Modeled MySQL schema with JPA/Hibernate and connected front-end to back-end through REST APIs, deploying the application end-to-end.

Task Manager Web App

HTML, CSS, JavaScript, Node.js, REST API

- Developed a task management web app enabling users to create, update, prioritize, and delete tasks through REST API routes/handlers built with Node.js.
- Built a responsive front end with HTML/CSS/JavaScript, connected to backend endpoints for real-time task updates and client-server request/response flow.

Library Management System

Java, OOP, Data Structures

- Built a Java application to manage book inventory, issue/return records, and member details using core data structures (ArrayList, HashMap).
- Implemented search and sort functionality to quickly locate books, applying modular OOP design to simplify future feature additions.

EDUCATION

B.Tech in Electronics and Communication Engineering — CGPA: 8.00 — Srinivas University Institute of Engineering & Technology, Mukka

Pre-University (PCMB) — 83% — Bandarkars Arts and Science College, Kundapura

SSLC, Karnataka State Board — 87.2% — Siddhartha English Medium High School, Shirali

CERTIFICATIONS

IBM — RDBMS & Front-End Technologies • C Language • Python Programming • Data Analytics (Global Certificates)
